"10 years ago we released our debut album "Bring It On" on Skint Records. It was the start of everything and it changed our lives for good. To celebrate this anniversary we re-released the original album on vinyl and hope to make a lot of people happy by doing so!

This was the album review in NME Magazine on 7th October 2006, that set a lot of things in motion for us: *"It's hard to know whether to dance to this record from the Belgian live-dance group or hand it over to the US military to help their research into subsonic weaponry. Twisting synths and sine waves to bowel-shaking extremities, this is an immense album. From the SOS growl of 'British Mode' to the diseased alarm sirens during 'Bring It On', it sounds as if it was recorded in a malfunctioning power station – an unsettling mix laced with a sense of emergency. See the 98 seconds of fuzz electro that is 'Check' if you don't believe us. While you're there, check the falsetto mechano-disco of "3T4", huge club hit 'Black Gloves' and... the entire album, in fact. New rave has some new noise terrorists."* (Tim Chester)"

STUDIO BRUSSEL 'MUSIC FOR LIFE' SHOWCASE ANNOUNCED

On Monday Dec 19th GOOSE will play a charity concert at Studio Brussel's yearly seven-day radio marathon 'Music For Life'. The charity of their choice is the ALS Liga België vzw / Ligue SLA Belgique asbl. Help GOOSE do something for everybody who is confronted with ALS and come and party with us!!
